Nielsen-Kellerman®/NK® Sports Meters, Watches, Amplifiers, Speakers, and Wiring	www.nksports.com
Blue Ocean Rugged Megaphones®	www.blueoceanmegaphone.com

The European Regulation on the Registration, Evaluation, Authorisation and Restriction of Chemicals, (REACH) was enacted in June of 2007, and is designed to consolidate various pieces of legislation within Europe and improve the level of information available on chemical usage within the supply chain. REACH was adopted to improve the protection of human health and the environment from risks that can be posed by chemicals. REACH identifies over 200 chemicals on a Substances of Very High Concern Candidate List. Manufacturers are required to notify customers when any of their articles contain >0.1% of Substances of Very High Concern (SVHC). NK confirms that the Covered NK Products contain none of the SVHC substances listed on the SVHC Candidate List. The current SVHC Candidate List can be viewed online at <https://echa.europa.eu/candidate-list-table>. NK will continue to monitor all manufacturing processes and product and component vendors and any changes to the REACH legislation and SVHC Candidate List.

This Declaration of REACH Compliance does not extend to any Covered NK Product subjected to contamination after shipment by an NK Company. Information provided herein concerning the substance content of the Covered NK Products represent NK's knowledge and belief as of the date that it is provided based upon our own internal analyses, vendor supplied analyses, and/or material certifications of the raw materials used in the manufacture of our products. NK makes no representation or warranty as to the accuracy of information provided by third parties. NK has taken and continues to take reasonable steps to obtain representative and accurate information, but has not conducted destructive testing or chemical analysis on incoming materials and chemicals. In no event shall NK's liability to any customer arising in relation to the declarations contained herein exceed the total purchase price of the Covered NK Product(s) sold to that customer.
